Iced Tea Syrups

Our carefully created syrups are the easy way to add thirst-quenching black, green and sugar-free iced teas to your menu.

SWEETBIRD ICED TEA SYRUPS

We've created our iced tea range to help you create speciality iced teas in an instant. With lots of refreshing flavours, from traditional teas to syrups with added exotic fruits, green tea and fragrant botanicals, the range delivers sophistication in a syrup. It delivers simplicity too. No more brewing hot tea and waiting for it to cool (hoping it's the right strength). Simply add a few pumps to a pitcher of still water, chill, and you have the perfect iced tea that's ready to pour when you are. Or stir up spontaneous sales with a pitcher of cool iced tea on the counter – there's nothing more quaffable on a hot summer's day. Make any of these teas in an instant with sparkling water for extra refreshment.
